

# DoubleWeave Rainbow

with Jennifer Moore

Oct 30, Nov 1, 4, 7

1 - 5 pm EST

via Zoom

Cost: \$175

This is perhaps the ultimate color sampler! You will begin by winding a warp and setting up your loom according to Jennifer's system for working with multiple colors in a rotational sequence and bringing it to the workshop. A basic two-layered structure will enable you to mix and match your colors, creating an amazing array of color mixtures. As you weave and your warp colors move past each other, you will experience a visual feast of iridescence and moiré patterns. We will also experiment with single-layered structures such as warp rep and warp-faced twills and the effects that they create on this versatile warp. Those set up for two blocks on eight shafts will also be able to explore an unlimited range of block combinations. This sampler will provide a remarkable education in color theory and how optical mixtures work in weaving, as well as being a great source of inspiration for future weaving projects.

The 4-day format will provide lots of time for you to weave your sampler between workshop sessions.

No prior experience in doubleweave is needed, but students must know how to warp a loom according to instructions.

Students may use a 4 or 8 shaft loom.

Students will be sent additional materials including warping and threading instructions approximately one month prior to class.
